Since this certamen is so early in the year, Latin I rounds will not be provided. If you have Latin IB's who want to play, let me know. They can either play as II's or can use the II questions but play separately, depending on numbers. Otherwise, Latin II questions will be at the level of Latin I questions from State Forum. Advanced questions will be at the level of Latin II questions at state with a few harder questions thrown in. Rounds have 15 questions except for finals. Advanced finals has one visual question and one passage question. I would like to play a three round game of World Series of Certamen as well. My students would write the questions for that. Are there any teachers/ SCLers who would like to play? No charge for World Series teams except for lunch for those not included in a school's chaperone or teacher list. Once I see who wants to play, we can discuss teams. I look forward to seeing you all at St. Johns.

Sincerely,

Leslie Perkins
